

## TECHNICAL DATA SHEET

### ALL PURPOSE CLEANER

197-2090

#### DESCRIPTION

A concentrated detergent cleaning compound. Highly recommended for wood floors and all types of flooring materials, painted or enamel surfaces, woodwork, tile, finished metal, concrete, glass, etc.

#### PRODUCT CHARACTERISTICS

- ◆ Concentrated liquid
- ◆ Economical
- ◆ Powerful Penetration and Quick Acting
- ◆ Works in hard or soft water
- ◆ Contains no abrasive, solvents, acid, ammonia or caustic.

#### METHOD OF APPLICATION

Spray, mop or sponge onto surface to be cleaned. Allow to penetrate soil. Rinse with clean water. Suggested dilutions are:

Windows.....	1 ounce per gallon of water
Vehicles.....	2 ounces per gallon of water
Walls and Woodwork.....	4 ounces per gallon of water
Floors.....	8 ounces per gallon of water
Concrete Floors (greasy).....	16 ounces per gallon of water
Machinery.....	20 ounces per gallon of water

**NOTE:** We recommend that you test a small area before using to determine proper dilution rate.

#### TECHNICAL DATA

Physical State .....	Liquid
Weight per Gallon .....	8.5 pounds
Color .....	Red
Odor .....	Lemon
Flash Point .....	None
pH Concentrate .....	10.3
Biodegradable .....	Yes
Freeze/Thaw .....	Stable, 2 cycles

#### AVAILABLE CONTAINER SIZES

55 Gallon, 5 Gallon and 1 Gallon Containers

The information and data given herein are based upon tests and reports considered reliable and believed to be accurate. However, due to circumstances beyond our control including but not limited to surface preparation, application technique, substrate and curing conditions, no guarantee of duplicate performance, expressed or implied, is made.
