

Technical Data Sheet

WATERLESS CLEANER & FLOOR PREP

197-2702

DESCRIPTION

This product is designed to clean wood surfaces where water is objectionable. It can be used as a tacking material for wood or concrete surfaces before applying a new coat of finish.

PRODUCT CHARACTERISTICS

- ◆ Colorless will not stain
- ◆ Removes rubber burns and black marks
- ◆ Removes dirt and soil without the use of water
- ◆ Leaves no residue
- ◆ Use with screening process on wood floors
- ◆ Removes residue from chemical stripping process on old floors

METHOD OF APPLICATION

Apply to floor with a mop or lambs wool applicator. Rub lightly to remove soil and spills. Stubborn stains or marks may require additional application. Do not allow cleaner to dry on floor before picking up residue. Use a wet dry vac or mop to remove excessive cleaner and dirt.

When this product is used along with a screening process for a new coat of finish or sealer, apply cleaner to floor and allow to set for up to 5 minutes. Then using selected pad or screen disc, move slowly over floor with machine. Tack rag floor using **WATERLESS CLEANER** to remove residue.

Use this same method to remove residue when chemical stripping is used to remove old seal or finish.

TECHNICAL DATA

Physical State	Liquid
Weight per Gallon	6.6 pounds
Flash Point.....	140° F
Color	Clear
Odor	Solvent

DURING APPLICATION, EXTINGUISH ALL FLAMES, INCLUDING PILOT LIGHTS. ENSURE ADEQUATE VENTILATION. DO NOT USE IN CLOSED AREA.

AVAILABLE CONTAINER SIZES

55 Gallon, 5 Gallon and 1 Gallon Containers
